

*Gabrian is uniquely positioned to offer contract manufacturing solutions that fit the individual needs of our customers. We can coordinate complete product solutions and deliver the results on time while meeting our customers cost and quality targets.*

#### **HIGH VOLUME ELECTRONICS (INDUSTRIAL)**

Eastar (HK), Ltd. Eastar is a highly structured, engineering-oriented CM that can meet the needs of the most demanding customer. Utilizing Juki SMT lines and HP 3065/3070 test systems, Eastar has an outstanding reputation for workmanship and attention to detail. Currently manufacturing life safety products for a large US company. Strong magnetics capability and rigorous solder training by highest qualified IPC certified instructors.

#### **MEDIUM-HIGH VOLUME (INDUSTRIAL/CONSUMER)**

Loyal Technologies, Ltd. A joint venture established in 2002, LT is Gabrian's second equity partnership investment in China. LT's management has experience in CM in both Singapore and China, as well as our experience in US manufacturing operations. We will be focused in building both magnetics and PCBAs as well as complete product solutions. While the factory is new, the management has deep experience in product manufacturing and agency approvals. Loyal Tech presents an outstanding window of opportunity to partner with a new operation that can become your strategic manufacturing asset in China.

#### **VALUE ADDED MANUFACTURING SOLUTIONS**

In addition to Eastar and Loyal Tech, Gabrian can offer a portfolio of manufacturing options that offer secondary value add for your products. We are uniquely capable of tailoring a customer requirement with the right manufacturing partner in China. Our staff, located in Zhongshan, PRC, has extensive manufacturing knowledge and close working relationships with a wide range of manufacturing companies. We want to be your sourcing solution in China.

***Gabrian has in-house design engineering, product development, and support capabilities to service OEM customers in area's of product design, DFM, and product documentation/specification.***
